**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

12:28:34 PM

The present feed-in tariff is unfair to solar rooftop owners. Please increase it in line with the wholesale electricity price and regulate it so retailers have to offer it as a minimum. Rooftop solar is good for the environment so why have in place a significant disincentive to invest in solar power.
