SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
8:22:35 PM

I support a fair price for solar because it make sense to our economy. The feed-in tariff should increase in line with the wholesale price of electricity and not just be a benchmark range. It makes sense for it to represent the true value of solar, recognising the environmental, health and network benefits of solar and providing an economy that can boom in the approaching clean energy standard.
