SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
1:10:19 PM

Thankyou for the recent recommendation regarding the increase in price paid for solar.

I support a fair price for solar.

The feed-in tariff should increase in line with the wholesale price of electricity and it should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

Thanks again

Stuart
