SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

2:33:40 PM

IPART please support the increase for the feed in tariff for solar. Those who have invested in this technology deserve a better deal for supporting others with clean energy. I ask

• That you support a fair price for solar;

• The feed-in tariff should increase in line with the wholesale price of electricity;

• The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;

• The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
