

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

12:26:09 PM

Please allow all small home producers to compete in the market with choice and a level playing field.

I have \$20 k of production capacity - 4.1 kWh - that is able to earn a return on capital a small percentage of the Ipart regulated return on assets/capital. I submit that small home solar producers be able to sell to the grid and earn an appropriate ROC and ROI. The energy retailers gouge monopolistic bid offer spreads in retail solar.
