SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

6:59:47 PM

Hello,

Thank you for the opportunity to express my support for solar.

I do support a fair price for solar.

I believe that the feed-in tariff should increase in line with the wholesale price of electricity.

Also, the feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

I believe the feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

Our house has enjoyed solar energy for 8 years now. It is the obvious solution in Australia to combat climate change.

Please give solar a chance and give our kids a future
