

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

To Whom it may concern,

I fully support an increase to the to the feed in tariff for solar electricity. The rebates that solar customers are currently receiving are far too low and in no way represent the value that solar adds to the community. Solar is a marvellous way for Australians to generate and receive their power. As it is non pollutive. Solar should be fairly priced and the feed in sheriff should be regulated and fixed and not just optional.

Thank you for accepting my submission.

Yours Sincerely

Tanya Excell
