**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
11:45:11 AM

IPART Tribunal

Is 11.6-11.6c a fair price for solar? Well, it's at least a start.

The feed-in tariff should increase in line with the wholesale price of electricity;

The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;

The feed-in tariff should represent the true value of solar, recognising the environmental and health benefits and the network benefits of rooftop solar.

Regards,

Tom
