Lets hope you have some people on your Tribunal who are not complete morons and climate deniers. Because there's simply no reasoning with those people. So to the people who are getting paid the big bucks because they got the big knowledge, WE NEED SOLAR. WE ALL NEED SOLAR. EVERYONE. BIG BUSINESS. SMALL BUSINESS. EVERY HOME. EVERY SHED. We need to use the free big bright dynamo in the sky which is shining down for on all of us. And those of us who have paid good money for our solar and are feeding clean energy back into the grid, need to get paid a decent price for it. Because we are at the forefront of the fight against climate change and since our government is still trying to sell the furphy of clean coal, you have to rely on us to save the world...
