

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
9:09:59 PM

We are low energy users who would like to install a solar system - but there is little incentive when the feed-in tariff is so low. We urge the NSW government to support the IPART proposal because it creates a fairer price for solar power, and recognises the environmental and health benefits and the network benefits of rooftop solar.

Sincerely,
Tanya Howard
