**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
12:17:10 PM

Its grossly unfair on solar owners whose feed in tariff is a pittance, when compared to what the major suppliers then charge it out at. Its time the environmental benefits of rooftop solar are recognised.  
I get really mad when i see 6c per KWh as feed in tariff on my bill. Its of little benefit to me, but is great for the wholesalers. Its onlt fair that we get a meaningful rate thats linked to the wholesale cost of electricity.
