Review	Review of domestic waste management service charges
Document Reference	c1e253a1-4210-41d3-97de-3be8f315fce7
1. Are there concerns with the prices councils charge for domestic waste management services? Why/why not?	<p>due to recent year Covid -19 Crisis most of family falling behind on financial matter that where Local government or council should be giving some relief to the people specially cost increased of 2.6 percent (Council rate)and others charges / Leaves such as Environmental levy, Storm water management charges.</p> <p>I don't see any reason why local government charges rate increase specially when people lost jobs, Working in state government/ Federal gov. frizz salary increased.</p> <p>Local government should be proactively participate helping the people when we needed most. We are in great recession since second world war and this is unprecedented time where normally people face lots of difficulties that could be even describe.</p> <p>I personally believe that i am Paying \$1575 council charges per year is very excessive specifically when i could not see any tangible service or benefit except the collection of waste.</p>

<p>2. If there are concerns, how should IPART respond? For example, if IPART was to regulate or provide greater oversight of these charges, what approach would be the most appropriate? Why?</p>	<p>Due to current situation world wide</p> <p>I am proposing here in given current circumstances.</p> <p>1. Local government/council should be giving up one quarter charges refund to all resident. 2. Local government/council should be stopped rate increase from this year to next 3 years.</p> <p>IPART should be consider the current situation specially people pay local council charges for years.</p>
<p>3. Would an online centralised database of all NSW councils' domestic waste charges allowing councils and ratepayers to compare charges across comparable councils for equivalent services (eg, kerbside collection), and/or a set of principles to guide councils in pricing domestic waste charges, be helpful? Why/why not?</p>	<p>should be have same price around council.</p>
<p>4. Do you have any other comments on councils' domestic waste management charges?</p>	<p>it's getting expensive by year past.</p>
<p>5. Which Council do your comments relate to?</p>	<p>Liverpool Council</p>
<p>Your submission for this review:</p>	<p>Please give me feedback who in government approved the rate increased. I want to file review or petition.</p>
