SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017
11:38:14 AM

I support a fair price for solar energy, it should represent the true value of solar which means recognising the environmental benefits and health benefits of rooftop solar. Australians are showing the industry they want sustainable power generation and it is time for the retailers to stop pushing unsustainable fossil fuels as the source and encourage even more homeowners to invest in solar panels by paying a fair price for the electricity they add to the grid.
