

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

4:02:00 PM

Dear IPART,

I support the increase from 7 cents to about 14 cents a Kilowatt. My supplier currently pays me 7 cents and can sell it to my neighbour for four to five times that amount. The supplier already charges us both for the poles and wire transmission with our daily connection fee. My solar panels are helping reduce the CO2 in the atmosphere.

Wal Knowles
