

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Saturday, 13 May 2017

3:03:01 PM

I would like to make a submission in support of a fairer price for solar. I believe that those who have invested in solar should be compensated fairly and justly. I believe that the feed-in tariff should increase in line with the wholesale price of electricity.

This feed-in tariff should not just be used as a benchmark, it should be regulated so that retailers have to offer it as a minimum.

I believe that the true value of solar should be recognised for its environmental, health and community benefits.

Those of us who have invested in solar believe that this is part of the puzzle for future energy requirements and should be compensated fairly for our commitment to our community and the environment.
