SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017

6:34:26 PM

I installed both solar and power water systems some years ago and at that time I was obliged to go to a gross meter. Under this system I was paid 60 cents for feed back but was charged well over 40 cents of peak power imported.

My current supplier (Origin) is still charging me the higher peak, shoulder and off-peak rates but only paying me 10 cents for any power fed back to the grid.

Time that some rationalisation was put into practice.
