Submission: I am very distressed by the suggested increase in Pensioner and senior fares. this proposed increase is most I unjustified after paying taxes for over 40 years and having never received any payments, subsidies or handouts from ANY government agency it behoves the NSW state government to be fair and just in dealing with all Senior citizens. It will adversely affect people at an age where they should be given the upmost respect and service from the Government.

Please note well this is neither just nor fair!
