

Author name: A. Churchill

Date of submission: Friday, 5 February 2016

Submission: I submit an objection to confidential submissions being allowed.

How can the process be open if confidential submissions are allowed.

For Example:- The government (or treasury or someone else) wants to start funding the cost of a Metro and knowing traffic on the Bankstown line over the next 50 years will not support a Metro operation is using confidential submissions to hide the facts (which should be known).
