Submission: Dear Sir/Madam

Thank you for this opportunity. I object to the 140% increase in Gosford City Council's water service fees over 4 years. The increase should be in line with the rate of inflation, currently 1.2%.

I have been paying rates for over 25 years. What has Council done with my money & other ratepayers money all these years? We cannot afford these ludicrous rise. The proposed 140% increase is not fair, unjust, unwarranted, stupid and laughable if they were not serious. I have not got a tree making money in my backyard. Council has not even put in a footpath or gutter or resurfaced the road outside my house, even though i have written to them all these years. They should be ashamed of themselves, the hide of them. They need to stop wasting ratepayer's money. Priority should be to increase productivity and stop bludging.

I would like to tell you what i think of Gosford City Council, but out of respect i won't. But they certainly need urgent medical help. They can talk about improving services & other propaganda and go find fools who will listen. Enough of their rubbish. In summary, I **OBJECT** to this ridiculous increase. I trust you will give us all a fair final price determination.

Thank You.

Yours Sincerely

Andrew Kostopoulos
