Dear Sir/Madam

All i ask is that you act sensible with this pricing matter. An increase in line with inflation is the fairest path to choose. I cannot afford these massive price increases, as i'm sure many others. Proposed and recommended increase above 10% up to 30% is plain stupid, wrong and no regard for your 'neighbour'. Efficiency and productivity should be paramount in Gosford City Council. Not the easy way - huge price increases.

Thank You
