

Dear members of IPART

I am writing on behalf of my parents \_\_\_\_\_ and \_\_\_\_\_ who both own two licence plates and lease them out through Premier Cabs.

We are very disappointed and concerned with your proposals with your recommendations. Your recommendation will mean that the lease costs will be reduced, due to the increase of licences it will be harder to lease them and the value of the taxi licence plates will be dramatically reduced.

We feel this is not fair as my parents have worked hard all their life. This is their investment for their future and it is being affected by your proposal.

We urge you to please reconsider your recommendation and amend them in favour of licence plate holders.

Regards

19 January 2013
