Submission: The Opal Card has been wonderful and has meant I've used public transport far more than previously. I still have to retain my car so will just return to using my car more often. If you want to keep aging drivers off the road I would strongly suggest maintaining the current level or near it.

Most Seniors Card holders are on superannuations and do not receive any other income so the Seniors Opal Card is helpful, dare I say necessary, for getting out and about and engaging in all the city and surrounds has to offer and for the ability to just get from place to place easily.
