Submission: I have been extremely disappointed to hear of the proposed changes to the Opal Card rates for Seniors.

This proposed change would have a negative impact on many Seniors like myself and may even put public transport out of reach for some.

Many seniors and self funded retirees do a huge amount of volunteering work and rely on the low cost public transport to get them to and from this work. The proposed increase is short-sighted and would have a huge "role-on" affect on this type of work in the community and I believe the implications of this would far outweigh the "socalled savings" by the cost increase.

I urge you to please reconsider this increase.

Yours sincerely
