Submission: Dear Sir/Madam,

Re: 10 most expensive trips - change to 8

Sydney commuters (as with many travel systems around the world) have enjoyed a discount for weekly travel for most of my lifetime. It would seem absurd to remove a weekly discount from the system, which will be the case if commuters have to pay for their 10 most expensive trips.

I agree that the current system is flawed (first 8 trips), but changing to a system of a commuters 8 most expensive trips makes much more sense, and is in line with most anyone's expectations.

Please remodel your proposals based upon such a discount.

Regards,
