Submission: I object to the increase in the seniors/pensioners cap from \$2.50 per day to \$5.40 per day unless there is an increase in the pension.

I applaud the following:

* increase in the off peak travel increase from 30% to 40%. I assume this is for travel between 0900 hrs to 1500hrs

* travel to be considered from point of origin to point of destination so that customers who have to take a bus and then a train will not have to pay two fares
