Submission: To whom this may concern,

It is very disappointing to learn the senior opal daily fare is proposed to increase by 44% from 1 July 2016. As retiree, I rely heavily on age pension and 44% increase in the senior transport will add more pressure to already tight my living expense. I am unclear about the justification of the 44% increase in senior airfare. I believe it is unfair and revolting to see such a massive increase. It will be terrible to see it happen.

Kind regards
