Submission: I have been a resident of Randwick city council for more than 15 years, and have been a rate payer for more than 10 years.

I oppose the proposal on the amalgamation of Randwick with any other council. The government primarily focuses on the benefit from the economy of scale, but pays less attention to the inefficiency of scope.

The government may need to take a longer time to listen to the voice of the residents regarding this amalgamation. As far as I know, my neighborhoods and friends living in Randwick do not like this proposal on amalgamation.
