Submission: I am writing to tell you that I think it is unfair that you will increase the cost of trips on the Opal card!

I live in Woy Woy and work in Hornsby. I walk or catch a bus to the station (if the weather is bad).

I may as well get my boyfriend to drive me around. I don't have a driver's licence and rely on public transport.

It is interesting that we were all encouraged to embrace the Opal card and Gladys even encouraged us to find the loop holes in the system to save money. Now we will be charged more. What's the point of catching public transport??? I would like to look after the environment and instead of encouraging us to be kind to the planet we will pay more for our trips!

It is expensive to live in Sydney so a lot of people are moving to the Central Coast to be able to afford to live and now we will pay more to commute to work.

I am disappointed.

Regards
