Submission: My main concern is that:

1. The position of the utility is near my home. If I had known of this development would have not moved to this areas in 1990.
2. Of water overflow either as a result of machinery breakdown or flooding. Overflow would go straight in to Lake Macquarie
3. The utility is on a flood prone property
4. Devalue my property due to perception
5. Move the Utility on to the property that it services.
