Submission: 1. I would be against the implementation that takes off the travel rewards after 8 fully paid journeys. This means more cost for me individually and you are discouraging use of public transport. As is, NSW train fares are the costliest in entire Australia already and you do NOT want people take out their cars for getting to Work on week days. Please refrain from touching this part of the Opal travel

2. I am against the recommendation to increase in the daily cap of seniors

3. I favour the recommendation not to charge Opal users for change of transport modes.
