Submission: Outrageous to consider increasing the Seniors Opal from \$2.50 a day. Not all self-funded retirees are wealthy. I know because I am such! My superannuation pension from a life time of teaching keeps me moderately well off not wealthy! I value the Opal concession as it is. This is one of the few concessions I receive.

The only change I would see as being reasonable would be a "peak hour" restriction.

If other major cities can offer seniors travel concessions (London for example) - why cant we?
