Submission: Ipart 's proposal for sunday opal fares to be increased threefolds from \$2-50 to \$7-20 will substantially hurting low-income families from all walks of life!!!

At present, Sunday is the only day low-income families can make use of a more affordable public transport fares for them to have a good day out, shopping, doing all the necessary household activities .

If the legislation pass and the Sunday fares go up as suggested, that will do a lot of damage to the poor communities who will miss out the only day of the week that they can save money for other family commitments and in turn putting enormous pressure on their budget and well-being!

Please re-consider by NOT raising the sunday fares for the sake of the poor.
