Submission: To Whom This May Concern

I will get straight to the point. The proposal to take away my seniors and Opal Seniors Gold Card is nothing short of Preposterous.

This must not happen. Let me assure you. The Government who allows this to happen will be signing its suicide note.

Here I am 70 this year and started work when I was 15 at David Jones and) at RPD since 2008 part time 16 hrs per week 2 days and am the proud holder of the Gold Opal and I am hearing

That it is going to be taken from me.

Please assure me that this will NOT happen. I don't have a problem with a slight increase, (dogs are barking that \$2.50 will go to \$3.50) a slight increase would be fair but al the other rubbish going up to \$9 per day and taking it off us unless we are on the pention is not to be endured.

Thank you
