Submission: I do not agree with this because there are people like me who didnt want to go through this service but were forced to and when the court set out that my money will be in NSW TG until i turn 18 they didnt let me know that there will be a fee charge which will decrease my money and this is unreasonable because i can choose someone else to keep my money for me without charging a fee or used another service. If NSW TG still charging a fee for my service i want to know how much would it be?
