Submission: To the person of authority,

Proposed increased prices for travel for Pensioners and Seniors is so excessive that those least able to afford these MASSIVE INCREASES of 44% for Pensioners and 260% for Seniors are once again being forced to suffer.

For many thousands of concession holders, travel is necessity to doctors, banks, business etcetera.

Business such as cafes, restaurants galleries and many more will suffer a decrease in income from those who either can't or won't continue to travel.

Consider the health of those who will not be able to get our and about, gaining valuable excersize.

Increases like this are unacceptable and greedy.

Regards
