Submission: I am writing to lodge my complaint or decision to upload opal card fares, as a senior I am self funded i cannot afford your decisions anymore, taking train from Newcastle is outrages, and travelling for 14 hours from caves beach to Sydney and return is outrageous i would love to invite you to try it one day it is so so much fun and now you want to upload more funding on opal.

I really think instead of ideas just coming out try reaching out to people at say central railway asking seniors what they think.

Hoping someone listens

cheers
