

Author name: B. MILLAR

Date of submission: Monday, 1 February 2016

Submission: I am 81 years of age, active and trying to keep within the world of today.

I am on a part pension and my travel card is of the utmost importance to keeping me physically fit and participating in LIFE without being a drain (healthwise) on the public purse. Any unreasonable rise in its cost would be a burden for society in general.
