Submission: I very strongly oppose the proposed excessive seniors opal travel fare increases.

I am a self funded retiree and do not receive any type of government funded pension.

Living in the inner city I rely very heavily on the regular use of public transport, including busses and ferries.

The proposed increases would have a detrimental effect on my public transport travel.

I implore you to reconsider this most unreasonable fare increase.

This is typical of the sneaky tactics used by this current state government to gauge as much as the can can from ordinary NSW citizens.
