Submission: My wife and myself are self funded retirees and presently use the gold Opal senior/pensioner card . If our daily cost was to increase to \$9/day then we would not be able to afford our regular little day trips around Sydney and would restrict our enjoyment and interaction with friends and relatives and we would be forced to use the car more often .

Lots of seniors are in a similar situation and would be seriously disadvantaged by such irresponsible action by our politicians. Remember, we all vote .
