Submission: Dear Sirs, I wish to comment and protest on the proposed increase of the Seniors opal travel card cost.. I think this is an unfair attempt to target self funded retirees, we use the train and ferry services in and around the city of Sydney....the volume of the increase is going to make public transport a second thought and revert to the convenience of using my car...which I would have thought was counterproductive to what the government would want..

A small increase to \$2:80 to \$3:00 and not the very very unreasonable \$9:00.

I would appreciate an urgent review on this matter...

Yours Sincerely..

David Malcolm
