Submission: The Gold Opal card is very generous. So it should be. Travelling is VERY expensive and for some seniors the \$2.50 a day fare is an absolute god-send. I believe I have contributed a great deal to society over the many years I have worked - and since retirement as a volunteer. The \$2.50 fare is a sort of reward, one I am very appreciative of and although I don't travel much the few times I do the low cost of travel helps offset the cost of food, cinema/theatre etc. Please don't increase the fare.
