Submission: Hi,

My wife and I live in Bishop Rd Menai, we request you forward this email to the relevant operatives. We both often use our seniors opal card to travel by bus and train to various locations at a max charge for two of \$5 per day. If the reported changes were made of a max charge per day of \$9 per person - \$18 per couple we would choose to drive.

Mostly we travel on a less than half full bus or train as our trips are outside peak hour. If the proposed changes were enacted Opal would loose \$5 per optional travel rather than make an additional \$13 (18-5); please have the intellectual giants that make such proposed changes look closely at this issue.

We are all better off enabling seniors to get out and about to spend on the odd coffee or lunch and enjoy the positive health benefits of outings.

Regards,

Toni and Greg
