Submission: Water prices comment to IPART

We strive to minimise the volume of water used in our home as encouraged by Government Authorities and have installed expensive tanks and pumps so we can better achieve this. Reducing our water use has reduced our bill.

However our water bill contains a Fixed Charge for the water service. This charge has become a significant part of our bill. This bill it was 25.6% and last bill 37.2%.

I would like to suggest that the Fixed charge be abolished or linked to water usage. Let's move to a true user pays system.

Regards

Gordon Clipsham
