Submission: TO put the Seniors fare up would mean I would have to reconsider my volunteering .

MY volunteering is in the City so there are few alternatives to the bus.

Also I attend classes in areas now accessible by bus but

I would need to put the car back on the road, adding to the terrible traffic,

The pension travel cars also gets people out of their homes and out of the Doctor's office.

I run a Course that involves a large group of Seniors travelling to Newcastle, or Wollongong, or Campbelltown, or Katoomba and other destinations within the metropolitan area (once a month). The high cost of travel would mean many could not join in this educational, companionship and fun activity. This is a U3A group activity, one of numerous activities involving Seniors with journeys from home to activity.
