Submission: I would be very disappointed if the \$2.50 all day fare for seniors, not in receipt of a pension, was changed to \$9.00.

It would change the quality of my life. I would not be able to have as many and as varied outings on public transport as I enjoy now. I would have to rethink journeys which I now thoroughly enjoy, and appreciate.

As a self funded retiree, this is the only government benefit I receive for being a "senior", and it makes me happy to think that the state government cares about my welfare.
