Submission: As self funded retiree who has worked ;paid taxes; saved I now find that you want to take away one of the small aknowledgments of my contribution to our society....I believe that your proposal to take away the seniors travel card for all is discriminatory; offensive and politically naive.

Not only that I now do quite some voluntary work for which I use my travel card..I suspect that there are many volunteers in the same position as myself...You need the grey army to pick up many of the social pieces the government are unable to cope with...in a small way the senior opal card keeps this army on the march...

simply I object to this proposal strongly
