Submission: Dear IPART

Don't do it! Don't raise the fares for Gold Opal Card holders.

It would be better to cut MP salaries by half or more! Take away the government cars. Insist all MPs travel by public transport at all times.

No more "privilege" by the rulers. We need a return to democratic practice - fairness - not the "we-know-best" bullshit currently on display.

Why is it ALWAYS the vulnerable who have to pay for the roting by private vested-interest profit-takers who are protected by their parliamentary buddies.

Don't raise the fares!
