Submission: As a senior, with limited income, I am entitled to a gold Opal Card, and I am shocked by the proposal to massively increase the cost of the daily use of the card. The increase in cost from \$2.50 to \$9.00 represents an increase of 360%, which is quite ludicrous and totally unacceptable. I am sure that the Public Servant(s) who recommended this increase would be rather distraught if their taxes were increased by 360%!.!
