Submission: I just want to say that since Opal introduction I'm now paying about 50 to 60% more for each journey, jsut because I'm changing from train to bus to complete my way to work... I used to have a My Multi 2 that was for Train and bus and I didn't have to pay as much as I do now with Opal... you need to make using Opal Card fair for people that must use more than one mode of transport to get to work.
