- **HUNTER WATER PRICING** are far to expensive, their are two of us, we pay over \$300 a quarter. We looked at two water bills that were 8 months apart,the water bills are almost identical?Hunter water say they have the cheapish water in Australia, \$1.90 for a 1000 liters is not cheap and why is the sewer so expensive ?If we had a young family we would really struggle with this bill.Water usage \$104.50 Sewer Service \$173.75 Drainage \$27.43 Environment Improvement \$11.62 Water service \$6.28 Total \$323.58.They employ over 170 engineers in the one building ! i know the "BOARD" thinks they are above everyone else and do enjoy a pleasurably employment, if they had to cut costs in there day to day "meetings"they would save there customers
